

A simple job, you don't need a complex printer.

LOCUST has the feature of low cost, easy use and maintenance free

Thermal Ink Jet technology

The LOCUST is based upon reliable TIJ technology, high quality, low cost and fast printing, LOCUST is ideal for single line printing for all corrugated cartons.

Load print job from USB-key

Build your print messages on a PC using the Locoware software delivered with the printer. Transfer to USB-key then connect and download to your LOCUST. The layout can be saved to the internal memory up to 30 messages.

Easy to integrate and use

The LOCUST is an 'out of the box' unit. Place an ink-cartridge in the head, connect to power and print instantly by pushing a button to select a desired message. The printer takes up very little space, a set of flexible brackets are included, this makes it very easy to integrate. Print horizontally or simply change the position of the printer 90° for printing vertically/down.

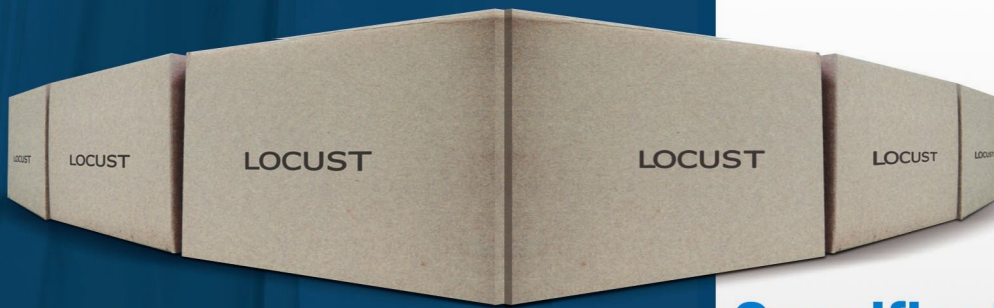

Built-in sensor

The LOCUST printer has two internal sensors, automatically switch print direction depending on which sensor is priority in sensed. The print speed is also adjusted automatically by measure the different timing of two sensors has sensed.

Ink Cartridges.

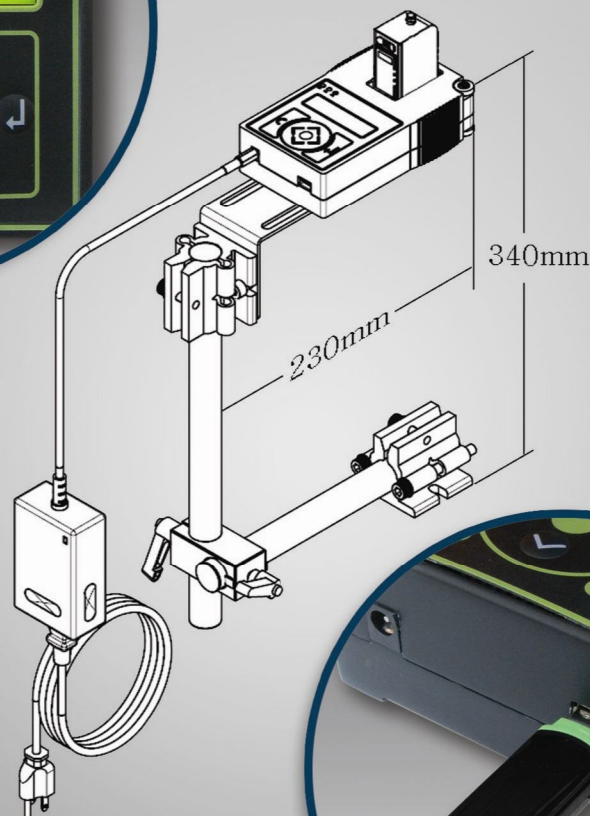

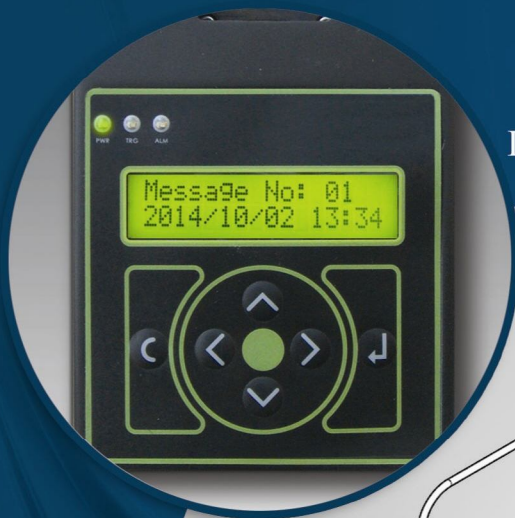

The nozzle has 104 print channels provides 9mm printing height with up to resolution 600 dpi. Dye and pigment water base inks are available. The ink color has Black, Blue and Red.

Specification

Print height:	9 mm
Print distance:	0.5 - 5 mm (nozzle to print surface)
Maximum printing length:	128 characters
Voltage:	DC +12V (power supply included)
Print speed:	40 m/m at 300 dpi
Design software:	Locoware (for WinPC)
Memory:	30 print jobs in unit
Print features:	Left/ right, upside-down, Auto switch print direction,
Signals:	Low ink signal (diode) and Print signal (diode)
weight:	0.35 kg, 0.77 lbs
Software Functions:	Graphics, Text (Alphanumeric), Counters, Date & Time (Real-time & Adjusted) and Logo. 4 Windows true type fonts
Interface:	USB
